Summary

I am a software developer with 3+ years of experience in Web and Mobile App development. I have a hands-on experience with various programming languages and technologies. My expertise includes C#, ASP.NET MVC, Javascript, Reactjs, Nodejs, Expressjs, Kotlin, Java, Android SDK, SQL, T-SQL, and MongoDB.

Experience

Full Stack Developer
Haad ICT Solutions

Jan – Dec / 2020

Travel agency System:

- Implemented **authentication** and **authorization** for the security of the system by using **Php,** and **MySQL**.
- Designed a **Dashboard page** for Admin accounts by using **CSS,** and **Bootstrap**.
- Utilized **Git** and **GitHub** to collaborate with my team.
- Deployed to a **Linux** server.
- Leveraged knowledge in full stack web development, **Php**, **MySQL**, and **Git**.

Projects

Online Bookstore: https://dhigane.azurewebsites.net

- Developed Bookstore website with add to cart functionality using **Asp .net core MVC** and **Entity framework.**
- Integrated with **Stripe** and **Paypal** APIs to make **online payments**.
- Implemented user **authentication** and **authorization,** using **Asp .net Identity** and the **OAuth protocol**, allowing users to create new accounts or authenticate with their existing **Google** or **Facebook** accounts.
- Deployed to **Azure cloud**.
- Leveraged knowledge in .**NET Framework**, **MSSQL**, **Entity framework**, **Asp .net Identity**, and **Azure cloud**.

School Fee Management App: https://play.google.com/store/apps/details?id=com.dugsiile

- Developed a native android app for teachers to manage their schools using **Kotlin** and **Android SDK.**
- Utilized **Git** and **GitHub** for version control.
- Integrated with a **Node.js** API using the **Retrofit HTTP** library.
- Architected the App with **MVVM** pattern and **dependency injection** using **Dagger-Hilt** library.
- Cached data from the API for offline usage using **Room Database**.
- Supported **dark mode** to improve the App's usability in low light conditions.
- Developed a backend API using **Node js, express js,** and **MongoDB.**

E-commerce website: https://baliil.com

- Developed clean looking e-commerce website using **React, Expressjs, Nodejs, and MongoDB**.
- Integrated with **Stripe** and **Paypal** APIs to make online payments.
- Containerized the App to run on every operating system using **Docker.** And Deployed to **Render**.
- Leveraged knowledge in **online payment APIs (Stripe** & **Paypal)** and **Docker**.

Education

Bachelor of Science in Electrical Engineering
Hormuud University

2015 - 2019

Diploma in Accounting
Client Care

Aug – Dec / 2019

Courses:

- Writing Financial Statements
- Accounting Softwares (**QuickBook**, **Sage 50** and **DacEasy)**

SKILLS

Languages: C#, Java, Kotlin, Javascript, Php, and Node.js

Databases: SQL, T-SQL and MongoDB

Web Technologies: HTML, CSS, Bootstrap, J query, and React, and Asp .net MVC

Tools: Git, GitHub, and Postman

Android: Android SDK, MVVM, Dependency injection, Paging, Work manager, Retrofit, Room DB, Navigation component
